

1.6K PWC Integrated Winch Box

DC 12v Manual & Wireless Models

AC 120v Model – coming soon!

NEW! Get out on the water faster. Let Lake Lifter’s new Integrated motorized PWC winch box do all the heavy lifting for you. Simply press a switch or key fob to lift & lower your watercraft. Fully extruded design provides a sleek look with unparalleled durability. Mounts to all PWC lifts replacing the standard winch & wheel. Precision bearings and machining techniques make this unit fast & quiet. Large diameter flat drum accepts ¼” cable. Universal mounting design allows installing the winch on either side of the lift to provide maximum convenience for the end users install location.
